

World Championship Practice Set Packs

Since there weren't many surplus practice puzzles after the World Practice Championship Contest on LMI, we decided to add some structure to these puzzle packs and just take one of two puzzle genres from each round of the WSC and WPC respectively. Since there are detailed Instruction booklets for both Championships, we have just provided a list of the selections, round-wise, to give an idea of the sets. As with all Puzzle Packs, there will be hints and solutions at the end.

The link of reference for the Instructions, rules, examples of these puzzles, are <http://uk2014.org/wsc.php> for the Sudoku pack and <http://uk2014.org/wpc.php> for the Puzzle pack. The list of selected variants/genres is given below.
